Provisions Available for Opt In

The following are conditions for the selected opt in provisions contained in the Agreements:

1. Selected provisions are available for all CLECs to review and request as Opt Ins. The selected opt in provisions are marked and bracketed. The selected provisions are, in a broad sense, related to an interconnection service or an Unbundled Network Element (UNE) under Section 251 that represent current, ongoing obligations and have not been superseded by other Agreements or Commission orders, terminated or expired.
2. A CLEC may request only those services that are being provided to another CLEC under the posted agreement on a going-forward basis. Provisions are not available for Opt In to these Agreements that are part of a historical or past settlement agreement. For example, a CLEC may not request payment by Qwest (or credit) to resolve a past billing dispute with another CLEC.
3. All of the requisites of Section 252(i) apply to a CLECs request for provisions posted herein. These include the requirement to assume all legitimately related and mutual obligations of the requested provision under Section 252(i).
